A Product and Service of the Aedeas Group

**EPSA-PRO IS THE WORLD'S PREMIER LINE OF HIGH QUALITY, ESCALATOR HANDRAIL CLEANING AND FINISHING AGENTS**

*With EPSA-PRO*

*Without*

EPSA-PRO is the world's premier line of high quality, safe and effective escalator handrail cleaning and finishing agents that improve escalator handrail appearance, rider enjoyment all while not damaging rubber, hypalon or TPU handrails.

EPSA-PRO - The professional escalator handrail cleaner and protectant is so effective its used by Aap!Global - the team behind Escalator Handrail Advertising to prepare their handrails for application of outdoor media graphics.

EPSA-PRO - The professional escalator handrail cleaner and protectant is available from escalator maintenance and services firms worldwide or online @ <http://www.escalatorhandrailcleanerpro.com>.

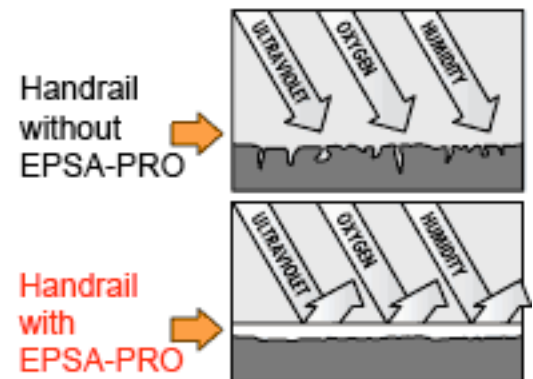

# EPSA-PRO IS COMPRISED OF A UNIQUE DUAL ACTION SOLUTION FEATURING

A Powerful Escalator Handrail Cleaning Agent	A Powerful Oxidizer with embedded surface agents	A Patent Pending Polymer Enamel with Mirror Like Finish
<ul style="list-style-type: none"> <li>• EPSPA-PRO can remove the toughest stains from handrails including paints, adhesives, grime, dirt, human oils, and other residues by penetrating deep into the handrail surface while not affecting handrail composition or denaturing rubber</li> <li>• EPSPA-PRO can safely remove layers and layers of caked dirt, grime or other residues on handrails without the need of machinery or replacement or more.</li> </ul>	<ul style="list-style-type: none"> <li>• EPSPA-PRO's powerful oxidizing solution kills handrail germs, bacteria and other unwanted particles, penetrating deep into the micropore structure of the handrail</li> <li>• Free of metallic based elements and structures common in under cleaning agents.</li> <li>• Leaves no residue</li> </ul>	<ul style="list-style-type: none"> <li>• EPSPA-PRO's polymer enamel protective finish is anti-static and repels dust and other dirt particles.</li> <li>• The enamel finish dries within seconds and does not require special heated applicators</li> <li>• The enamel finish is breathable and allows SBR Rails to bloom and breath naturally.</li> <li>• Protects SBR rails from oxidization and UV rays.</li> <li>• Does not contain dust attracting silicon additives.</li> <li>• Transparent polymer coating will not crack and lasts for as long as 30 days between applications.</li> </ul>

## Why Use EPSPA-PRO?

- Improved handrail appearance and rider enjoyment
- Provide riders with an anti-bacterial solution
- Improved eminence leads to longevity of escalator handrails.
- Entire handrail can be made like new in as little as ten minutes.

**It Doesn't Just Clean and Shine, It Protects.**

# EPSA-PRO GUARANTEES RESULTS WITHIN SECONDS

EPSA-PRO's unique combination of powerful escalator handrail cleaner and handrail protectant is easy and safe to use

EPSA-PRO's escalator handrail cleaner can cleanest the worst stains including graffiti, caked bubble gum, unwanted adhesives and more all without damaging handrail.

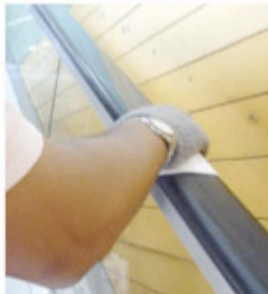

Simply apply EPSA-PRO's escalator handrail cleaner solvent based cleaner on a lint free cloth and clean handrail.

Once cleaned EPSA-PRO protectant polish can be applied with a lint free cloth. The polymer enamel dries within seconds leaving the handrail with a mirror like shine.

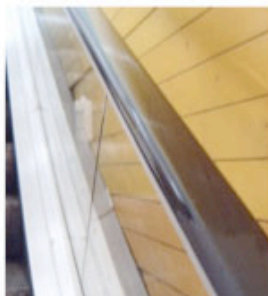

Material Safety Data Sheet Available online @ <http://www.epsapro.com>

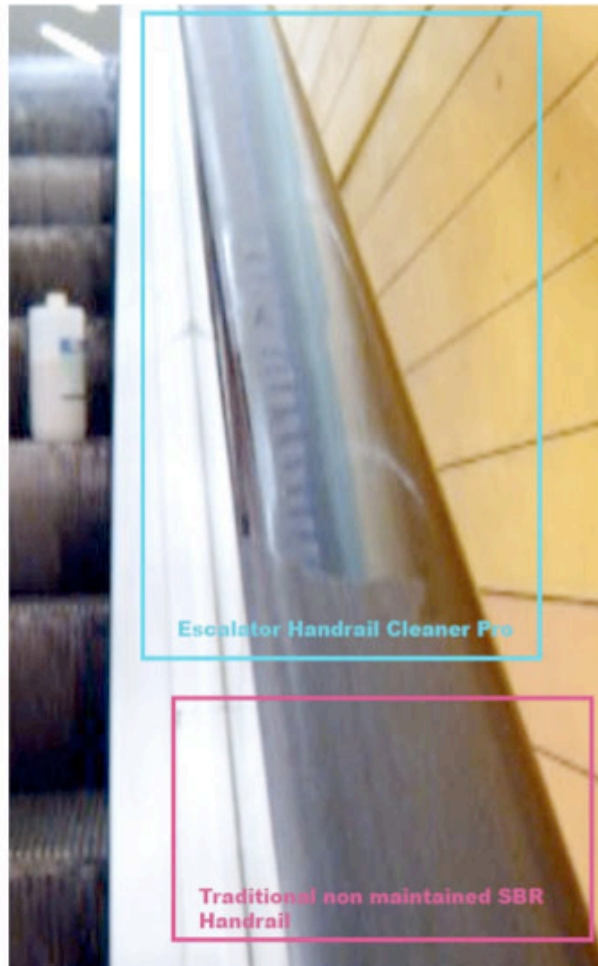

**Pour**

**Apply**

**Enjoy!**

**The results are obvious within seconds.**
